GARLINGHOUSE ALL-AMERICAN HOMES

The plans shown in this book represent only a fraction of the total number of designs which are available to you. We have 22 different plan books listed on the inside back cover of this book and in them are more than 1,250 designs from which you may choose the one you wish to build.

Complete Plans Available

Complete working plans, specifications and mill lists are available for every design shown in any of the GARLINGHOUSE plan books. The moderate price of these plan sets represents your best investment when building, since you know in advance what you are getting, thus avoiding misunderstandings.

THE PLANS, SPECIFICATIONS, LUMBER AND MILL LISTS as we have them made up for the designs in our books are sufficient and further details are not needed by any competent builder.

MINOR ALTERATIONS CAN BE MADE BY BUILDERS—It is impractical to change our tracings to show alterations, but minor alterations in design, material substitutions, etc., can be made by any competent builder without going to the expense of making special plans, which usually cost several times the price of our stock plans.

Complete plan sets when ordered will be mailed by parcel post (or air mail anywhere in U.S. if 75c per plan additional is included) within one day after your order has been received by The L. F. Garlinghouse Company.

TO OBTAIN COST ESTIMATES—An estimate of what it will cost to erect any house illustrated in any of our books, in your locality, may be obtained by consulting your local builder.

ALL PLANS SENT ON MONEY BACK GUARANTEE—All Garlinghouse Plans are sent on a "Money Back If You're Not Satisfied" Guarantee. You have five full days after receiving the plans to study them over and to decide if they will serve your purpose. Plans which are not satisfactory may be returned for prompt exchange or refund.

Order Your Plans This Simple, Easy Way!

We have available to you the complete working plans, specifications, lumber and mill lists for the designs shown in this book and all of our other books (listed on the inside back cover) at the prices listed with the design (\$7.50 to \$25 per set). Your plans will be in the mail within 24 hours after we receive your order. Here's what you get:

PLANS—The complete working plans consist of blue prints of all four elevations, basement and all floor plans and details showing built-in features and intricate parts, all drawn to a scale of not less than one-fourth inch to one foot. Also, a plot plan in blank to be filled in locally.

SPECIFICATIONS—The specifications explain in

detail the construction of the house from the excavation to the interior decoration.

LUMBER AND MILL LISTS—The lumber and mill lists consist of an itemized list of lumber and mill materials needed to construct the building and state where each item should be used.

A Selection of the Nation's Most Popular Homes by America's Pioneer Plan Service

No. 1735—A design for a 50 foot lot with all of the luxuries of the larger rambling types is illustrated in this modern-day planning. The large living room with fireplace and large picture window, the expandable dining room and the terrace, with its barbecue oven, opening off the dining room and within easy reach of the kitchen, affords all of the opportunities of year-round living.

No. 4357

No. 4357 — (Above and left)—Modernistic tendencies mark this attractive cottage. The recessed entrance is in keeping with the design, and is also practical. A new feature of the small house is the built-in dressing table in the bath room. An excellent plan is shown by the compact 5-room arrangement.

No. 6050

No. 6050—Vertical siding and brick trim have been used to emphasize the beauty of the picture window in this Southern bungalow. The rest of the exterior is of shingle construction. Built over a four-inch concrete slab, this house is suitable for most areas since construction details call for adequate sub-floor insulation and vapor-proofing. The roof is of the built-up

type. As both the kitchen and utility room are of generous size there is an abundance of shelf space and work areas are conveniently arranged.

To Build Without Complete Plans Invites Misunderstandings

No. 6445

No. 6445—A skillful combination of materials is used to create an extremely pleasing exterior for this three-bedroom bungalow. The floor plan is arranged to make it possible for a person to go from practically any room in this house to another without crossing through any other room. The central hall provides an entrance vestibule with a convenient guest wrap closet. All of the bedrooms, the living room, and the kitchen have excellent cross-ventilation.

No. 6040

No. 6040—Here is a home designed for pleasant living. Of frame construction, it has brick trim across the front bedroom and garage. The sun room can be developed for many uses, but for most families it would become a family living room, leaving the other for "company." The rear arrangement is convenient,

No. 6490—A fine example of the successful modernization of the basic Cape Cod design, this lovely four bedroom house is ideally planned to meet the needs of an active modern family. The living room and dining room provide ample open space for entertainment; the den for seclusion. The terrace to the rear is so convenient to the dining room that it invites use as an outdoor dining area not just for special occasions but regularly.

No. 2588

No. 6034—Planned as a luxurious country home to overlook a broad expanse of lawn, this house has three immense bedrooms and a superabundance of closet space. Depending upon the family requirements the bedrooms could be used as combination bedroom-playroom for the children, bedroom-sitting room for parents, and as a private apartment for a guest. The storage closets on the second floor marked "C.C." are cedar lined clothes closets. The central hall plan, as always, makes for an extremely convenient house where the various rooms are easily reached with a minimum of cross-traffic through other rooms.

No. 6429—This house is constructed of concrete “bricks,” so named because they are much smaller than the average concrete block used in residential construction. When used in a modern design such as this hipped-roof five-room suburban, they create an extremely pleasing appearance. This house is excellently arranged for the average small family. The kitchen, with its continuous cupboards, is highly efficient. The front bedroom has two closets of wardrobe size giving an unusual amount of storage space. Casement windows are used throughout.

No. 6745

No. 6745—In the wide expanse of the near prairies with trees dotting the landscape here and there, we find this wonderful ranch type home. There are seven large rooms, two complete bath rooms with both tub and shower, lavatory, nine closets and a two-car garage. The attic provides large storage spaces and the basement, reached from the kitchen, provides heating and laundry rooms, and more storage space. The recreation room is shown a few steps down from the main floor and in this room is a square raised fireplace. The foundation is concrete and the house is frame with painted brick and sided exterior. The roof may be either wood or composition shingles.

No. 6315—(Below)—This charming little house, with its large picture window and interesting roof lines, has a compact floor arrangement with good separation of the living and sleeping quarters. A dressing table could be built-in since the bathroom is large.

Homes described in this book are distinctive homes — homes that express individuality.

No. 6324

No. 6324—The use of vertical siding and shingles gives this Colonial house a pleasing sense of balance. The living room is of generous size and the well-located fireplace permits an interesting furniture arrangement. The kitchen with its twin sinks has a generous supply of cupboards. This house could be built originally with the second floor left unfinished until a later time. The upper arrangement allows for a bedroom of an impressive size, with convenient storage space for clothes and infrequently-used articles.

The "reverse" of a plan means that the rooms which are shown on the left in the photo and floor diagram would be placed on the right. All dimensions and proportions are retained in the plan as reversed. To obtain the effect of a reversed plan hold the photo to a strong light and look through the rear side. Reverses are provided to allow you to orient the house to suit your lot.

No. 1483—A lovely little cottage of frame construction with brick veneer exterior. The stone trim adds much to the beauty of the design. An excellent plan of five rooms, bath and closets is shown. The kitchen with its breakfast nook is ideal. A recreation room is located in the basement and the stairs from the dining room lead to a large attic.

Select Your Fireplace

With Full Information

Our top recommendation for year-round satisfaction is the Donley Heatsaver Fireplace, that circulates heat (more than you expect) from outlet grilles that may be placed in the immediate room or other rooms, combining the charm of an open fire with the efficiency of a small furnace . . . Many small homes are adequately heated by the Heatsaver alone. In larger homes it brings comfort during chilly "between" seasons. Burning any solid fuel, it is a godsend when more complicated heating devices fail . . . But if your choice is a simple masonry fireplace, it makes a lot of difference how it is planned and built. The Book of Successful Fireplaces is a standard guide for architects and has brought fireside happiness to thousands of homes . . . Now about outdoor fireplaces — Everyone enjoys hot meals cooked in the open, also a bright evening glow lighting lawn and garden. Outdoor Fireplaces, How to Build Them, tells you how to avoid mistakes and get the most from your barbecue investment.
